## Mission Statement

Pathway Care Residential is part of the NFA Group, the largest combined children's services group in the UK. Our operating businesses successfully deliver frontline fostering, educational and care services to children, their families and local authority customers.

Our purpose is to provide outstanding care and education to the UK's most vulnerable and difficult to place children and young people whether with specialist foster parents, within education or in a supportive and understanding environment of residential care.

We offer each and every child and young person courtesy and respect, and work in conjunction with local authorities to deliver a range of care, education and other specialist services which offer best value whilst ensuring the best possible outcomes for each child.

As a group, we benefit from a wealth of experience allowing young people the opportunity to thrive and develop by realising their potential whilst being happy and feeling valued.

Pathway Care Residential (PCR) is an organisation who are committed to providing high quality care and delivering positive outcomes for children via a truly multidisciplinary team approach within an open but emotionally secure domestic style environment. As a transparent organisation, we recognise that every child and the care they receive matters.

## 2. Objectives of Elm House

Elm House is a PCR children's residential care home committed to providing care to children/young people on a long/medium/short-term depending on the needs of the young person. Elm House provides a holistic, safe, stimulating and supportive family environment where children/young people cared for can live, learn and develop.

The home provides a high standard of care, educational support and accommodation for up to four young people, aged eight to eighteen. We work in partnership with relevant Children's Services departments, and other agencies within a clear and comprehensive policy framework, in line with company policies.

The staff team at Elm House are highly committed to working intensively providing care and support to all young people.

The home endeavours to avoid the negative aspects usually associated with institutional residential living and to create an environment and atmosphere, which reflects many of the positive aspects of a normal family home.

The aims of the home are to work towards the following for each young person (depending on their identified individual needs)

## Elm House Statement of Purpose

- To return to live with their family
- To live with foster carers
- To move into supported semi-independent living accommodation
- To move into fully independent living accommodation
- To move into another form of residential placement.

Prior to admission, every effort is made to establish the long-term plans for each young person and a Placement Plan is prepared which clearly focuses on his or her individual needs.

If necessary, the Placement Plan can encompass access to counselling, behaviour management, the development of life skills and semi/full independent living packages and anger management. Typically, the objectives of the Placement Plan will concern:

Helping the young person to come to terms with any traumatic events in their past  
Modifying those behaviours, which are unacceptable for the young person and/or others.  
Developing those life skills which have been inadequately developed in the past.  
Assisting the young person to form, maintain and build relationships with other young people and adults and to integrate into social groups.

Progress by the young person towards achieving the main objectives of his/her Placement Plan is monitored at formal reviews with representatives of the responsible local authority and others significantly involved in the care and development of the young person concerned. Should there be a marked decline in the young person's behaviour their Social Worker would be contacted immediately.

At Elm House, we see as very important the role performed by the keyworker. Soon after arrival each young person will be allocated one, together with a co-keyworker who can act on the keyworker's behalf when they are not available. The role of the keyworker will include responsibility for:

Promoting the young person's participation in and the ownership of their care programme or semi/full independent package  
Actively putting the care plan as well as any independent package into action  
Ensuring the care plan or independent package is reviewed at appropriate intervals  
Ensuring the main aims of the placement are kept on target  
Ensuring that the young person's file is kept in order and up to date  
Ensuring that all necessary appointments are arranged and social workers, parents or significant others are kept well informed  
Being a contact person for the young person to approach if they have any concerns, worries or aspirations they want to discuss  
Being responsible for promoting personal health and hygiene, active participation in all individual or group activities and the attendance at the resident's meetings and discussions relating to planning the weekly menus and activities  
Assisting the young person to establish, promote and maintain positive links with school, family members (or significant others) and other professionals involved in their care.

## **6. Available Services**

### Residential Placements

- Short, Medium and long term residential placements.
- Placements with therapeutic support.

## **7. Who may be referred to Elm House**

Elm House is able to accommodate:

- Four young people

- Aged between 8 to 18
- Young people with socio-emotional / behavioural difficulties
- Children with mild learning difficulties.

In accordance with Pathway Care Residential's Equal Opportunities Policy, children of any gender or ethnic origin may be referred.

The layout and design of Elm House is such, that the home is able to accommodate a young person with mild mobility difficulties. It would not however be suited for children with severe mobility difficulties.

### **8. Admissions Procedure**

We always aim to ensure the Admission process is as speedy and straight forward as possible.

Preferably, placements should be planned, providing for as smooth a transition as possible for the child/young person concerned,

The flow chart below shows the normal Referral/Admissions Process. The process can be adjusted to accommodate individual referral circumstances.

## Elm House Statement of Purpose

### 9. Child Health Care at Elm House

Elm House adopts, and follows, Pathway Care Residential's policy & procedural guidelines on the provision of Health Care for every child/young person. This ensures a consistent and proactive approach to health and health education by both staff and children. The central focus of our Health Policy is to empower the child/young people and to provide them with the tools and information to make informed decisions about their health.

Upon admission to Elm House, every child/young person has a new patient health check at the GP surgery unless they remain at their previous surgery. All young people within our care are registered with a local GP and have access to a range of other health care facilities, which may include:

- Dentists
- Chiropodists
- Counsellors
- Opticians
- Social-Psychological Services if applicable
- Other Therapeutic services as appropriate

Health Education is promoted via structured individual key working or group sessions, whichever is thought to be more appropriate in accordance with the feelings of the children/young people.

The PCR Health Care Policy includes providing information on physical, emotional & sexual health. Our philosophy and approach is that good health is achieved through paying attention to basic needs such as nutrition, adequate sleep, regard for safety and appropriate medical attention when required.

### **10. Education**

PCR believes that all young people have the right to an education suited to their needs, ability and personal aspirations. We acknowledge research suggesting that children within the care system are potentially at risk of poor educational achievement due, in part, to many extrinsic factors.

Therefore, we believe that we have an Absolute Duty to ensure that children in our care achieve generally, and educationally, to their highest potential. Elm House staff are all involved in proactively implementing the provision of each child's Personal Education Plan [PEP] and EHC plans. Key Workers/Children Home Managers oversee the implementation of PEPs and EHPs and monitor progress against objectives.

Elm House creates a positive culture and environment for valuing education with adequate space and facilities for children to do their homework, including quiet, well equipped study areas, educational resources and personal computers etc.

### **11. Educational Services Offered**

Mainstream education at comprehensive and junior schools within the catchment areas. In order to maximize educational inclusion and attainment, Elm House will work in a supportive and collaborative manner with all local schools and schools in the surrounding areas [mainstream and special educational]. Also, we will work with our partners in Nottinghamshire County Council Children's Services and City of Nottingham Children's Services in maintaining continuity of education.

For children and young people in between or excluded from Education, PCR also partner with R.E.A.L. education. The R.E.A.L staff support model includes training in the management of behaviour, safeguarding, knowledge of special educational needs and risk management as well as access to specialists such as psychologists and advisory teachers.

This approach means R.E.A.L are in contrast to many alternative providers as they address personal development and emotional wellbeing in tandem with re-engagement in learning. They do not simply offer one approach; we provide a continuum of opportunities that enable progress towards re-inclusion

### **12. Unauthorised Absence from the Home / Missing from Care**

Elm House provides all Residential staff and children with written procedures, which are clearly followed when a child is Absent Without Permission. The application of the Absence procedures is consistent but at the same time take account of the individual child's needs which are clearly set out in his, or her, Placement Plan and Risk Assessment.

Any child that is away from a PCR home is made welcome upon return – the principal aim will be to work with child/young person to find out why he, or she, felt the need to leave his or her home without consulting or seeking permission from staff. It is expected that the child/young

person will be seen by his or her social worker or a person who is independent of the home following their return and where appropriate, changes to Placement / Risk Assessment are recommended and agreed with appropriate people, including the child/young person.

Any reports from a child that indicates he or she went missing in response to being abused will be immediately reported to the appropriate Social Worker, commissioning authority and OFSTED. Appropriate measures will be made to protect the child/young person.

Elm House observes missing from care protocols developed and implemented jointly by Nottinghamshire County Council Children and Young People's Department, City of Nottingham Children's Service and Nottinghamshire Police.

Also, we will work with the local Police in progressive and collaborative to ensure an effective and balanced approach to managing matters pertaining to unauthorised absence and missing from care episodes, with particular regard to the proper and sensitive use of Police resources and positive relationships.

Our approach to managing incidents involving young people considered to be Missing from Care is guided by our Missing from Care policy, a copy of which can be obtained upon request.

### **13. Complaints, Comments and Compliments**

Elm House takes seriously all representations and complaints and manages them sensitively and as close as possible to the originating point, ensuring that the child's best interests are kept centre stage. We endeavour to ensure that all children, staff, and parents are aware of, and understand PCR's written policy and procedures on Representations and Complaints. Furthermore, PCR operates a transparent complaints procedure, which is clearly visible on notice boards and other appropriate locations.

Elm House is committed to the operation of an effective Complaints & Compliments procedure, designed to keep paramount the needs of all service users, irrespective of age, race, gender and disability.

Any complaints received will be taken seriously, with particular attention paid to the needs, feelings and sensitivities of the child/children concerned.

Arrangements will be made so that where a complainant remains dissatisfied and requests within 28 days that the complaint be reviewed, a panel is constituted by the responsible authority.

Parents, social workers, and care staff will be informed of the outcome of the complaint.

## **14. The arrangements made for promoting appropriate behaviour and for the control, restraint and discipline of children.**

Elm House, in line with Pathway Care Residential's policy, seeks to promote, within a clearly defined policy framework, positive relationships between adults [care staff] and children.

None of the disciplinary measures prohibited under Regulation 8 of the Children's Act 1989 are permitted at Elm House. All staff at the home aim to work together with children as a team to enhance our ethos of a family home within a framework of continuous positive reinforcement of good behaviour. In addition, appropriate [age/understanding-sensitive] sanctions, and disciplinary measures, are only applied after careful consideration as defined within Pathway Care Residential policy and procedures.

Our approach encourages reparation and restitution and we seek not to allow negative behaviour to become the focus of attention. PCR staff will not make excessive, or unreasonable, use of sanctions or physical intervention.

Physical Intervention (MAPA@ - the management of actual and potential aggression) is used only in specified circumstances i.e. to prevent likely injury to a child or to others, or likely serious damage to property. All PCR staff are trained in the use of Physical Intervention techniques, which include Redirection, De-escalation, Avoidance and Reduction techniques. Clear records are kept of the use of sanctions and physical restraint ensuring that the application of the same can be monitored, and reviewed, at regular intervals.

MAPA@ [Positive Options] is endorsed by the British Institute of Learning Disabilities [BILD]. PCR is an Approved Training [ATC] Centre for MAPA@ and BILD Silver Members.

Elm House will operate in conjunction with each young person the opportunity to have and take part in reward / incentive schemes in recognition of and to reinforce appropriate positive behaviour.

The involvement of police in the running of Elm House is guided by our Police Involvement Policy: a copy can be obtained upon request: our guiding principle is to avoid, where and appropriate, the

criminalising of children and young people; we seek to work positively with our local police officers.

### **15. Safeguarding / Child Protection Policy**

#### **Statement of Principles**

Pathway Care Residential [PCR] believes that all children have the right to be protected from ALL forms of abuse, whether this be physical, sexual or emotional abuse or neglect. Our approach to all aspects of care delivery is Child-centred. With regard to Child Protection we firmly believe that the blame for abuse will rest solely on the abuser and that the welfare of the child will always remain centre-stage.

Concerns over the safety, or well-being of a child will never be ignored. Our Safeguarding procedures are consistent with the local policies and procedures agreed by the Local Safeguarding Children's Board [LCSB]  
PCR is a Section 11 Children Act 2004 compliant service.

To define abuse, PCR has adopted the definition provided by the National Commission of Inquiry into the Prevention of Child Abuse, 'Childhood Matters':

"Anything which individuals, institutions or processes do or fail to do, which directly or indirectly harms children or damages their prospects of safe and healthy development into adulthood"

#### **Policy Objectives**

Our Safeguarding / Child Protection Policy aims to:

- Provide clear and specific guidelines to enable staff to deal with child protection issues effectively.
- Set high internal standards to ensure that the children cared for by PCR are well protected
- Ensure PCR's credibility, as a professional care organization, remains high and seeks to ensure that commissioning officers feel assured that PCR is a 'safe' organisation
- Ensure that every individual working for PCR knows what to do in a Child Protection Emergency.

#### **Safeguarding / Child Protection Policy**

At Elm House, everything we do is geared to the protection, happiness and development of children. Our Safeguarding policy [hereafter referred to as 'the policy'] is detailed, extensive and child-centred.

The policy provides detailed definitions of physical, sexual and emotional abuse, mental cruelty and neglect.

Also, the policy sets out clearly, and in considerable detail, who is responsible for dealing with suspected, or actual, incidents of abuse, defines how matters of abuse should be dealt with and provides supportive guidance to officers who may be involved in dealing with such matters.

Other aspects covered under the policy include:

- Disciplining Children
- Direct Work with Children – Protecting Staff
- Whistle Blowing
- Confidentiality
- The duty of care and public liability insurance
- Records and Record Keeping
- Computer Safety
- Working with Social Workers

The PCR policy framework and management approach is designed to minimise the risk of child abuse. However, we recognise that there is always a chance that a child located in the safest of environments may fall victim to abuse. At PCR, no child protection issue is ignored. Our response to any allegation, or suspicion, is child-centred, transparent, swift and affirmative.

Copies of the PCR Safeguarding / Child Protection Policy are available upon request.

### **16. Bullying**

Elm House is committed to providing a residential environment where young people can live safely, without the fear of oppressive behaviour from staff or peers through any form of bullying or intimidation.

PCR provides all staff and children in its homes with clear definitions of Bullying. We believe bullying can take many forms from verbal, emotional, sexual or racial abuse to actual physical assault.

In all cases PCR staff will:

Investigate fully any indication of bullying.

Support the victim to prevent any further oppressive behaviour from others.

Re-assure the victim that being bullied is not acceptable and that it is not their fault they are bullied

Minimise any further opportunities for bullying to occur by whatever strategies are realistic and achievable.

Confront the bully with their actions so their oppressive behaviour is not condoned by inertia.

Pursue legal action should the nature of bullying indicate the need for this.

Arrange for an urgent review to include all involved parties to agree an action plan to deal with the bullying; this may include reviewing the appropriateness, and compatibility, of placements.

Identify, and action, positive alternatives for both victim and perpetrator to develop those skills necessary for positive relationships.

Keep a written record of all incidents and actions taken.

PCR believes bullying and oppressive behaviour has no place within its homes, in any shape or form. We are committed to an equality of service that demands a safe and caring environment for all service users.
